SUMMARY

Backend Developer skilled in Java, Spring Boot, and Microservices architecture. Hands-on experience building scalable, distributed backend services and RESTful APIs using Agile and Scrum methodologies. Strong with Hibernate (ORM), PostgreSQL, Kafka, and CI/CD deployments using Docker. Adept in JUnit testing and debugging.

TECHNICAL SKILLS

- **Languages:** Java, Python, JavaScript
- **Frameworks/Libraries/APIs:** Spring Boot, React, Hibernate (ORM)/JPA, RESTful API
- **Databases & Messaging:** MySQL, MongoDB, PostgreSQL, Redis, Neo4j, Apache Kafka
- **DevOps & Tools:** Docker, Git, Postman, Agile
- **Core Technical Skills:** AOP (Aspect Oriented Programming), Linux
- **Relevant Courses:** Data Structures & Algorithms, Object Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

PROJECTS EXPERIENCE

Career Connect Platform | Java, Spring Boot, Microservices, Neo4j Nov 2025 - Dec 2025

<https://github.com/vankteshdixit/careerConnectPlatform>

- Built distributed Microservices using Java 21, Spring Boot, Spring Cloud, and Eureka for service discovery.
- Implemented a Neo4j Graph Database for connection queries, reducing relationship traversal time by 40% compared to SQL joins.
- Improved system scalability by decoupling services with Kafka, enabling asynchronous communication under high load.
- Secured endpoints via JWT-enabled API Gateway & deployed service on Kubernetes with Docker

Hotel Management AirBnb | Java, Spring Boot, Hibernate, Stripe API, PostgreSQL Oct 2025- Nov 2025

<https://github.com/vankteshdixit/airBnbApp>

- Built a Spring Boot + PostgreSQL backend for hotel management.
- Handled concurrent booking scenarios using pessimistic locking.
- Implemented a Dynamic Pricing Engine (Surge factor) for real time calculation.
- Optimized search endpoints by precomputing daily rates, reducing API response times by 60% during peak queries.
- Integrated Stripe API for secure payments using webhook-based confirmations and refunds.
- Secured the platform with JWT authentication and role-based access control.

EDUCATION

Sir M. Visvesvaraya Institute of Technology (VTU) Bangalore, IN | 2022 - Present
B.E. Information Science & Engineering CGPA: 8.01

Onkareshwar Saraswati Vidya Niketan Inter College Kanpur, IN | 2021
Class XII(PCM) | UP Board Percentage: 83%

St. Aloysius School Unnao, IN | 2019
Class X | CBSE Board Percentage: 81.2%

CERTIFICATIONS/ACHIEVEMENTS

- Spring Boot & Backend Development | Learned building a RestApi, Postgress, Hibernate
- Solved **450+ DSA** problems on LeetCode, reaching a contest rating of 1740+, demonstrating strong problem-solving skill and consistent performance in algorithmic challenges.
